Eagle Rivet Roof Service  
15 Britton Dr.  
Bloomfield, CT. 06002

To Whom It May Concern:

Eagle Rivet Roof Service is a Johns Manville Peak Advantage Contractor. This collection of North America's most elite commercial roofing contractors must pass a rigorous selection process initiated by Johns Manville Technical Services before being approved to install JM roof systems. As a Peak Advantage Roofing Contractor, members are able to install JM roof systems which may require a Peak Advantage Warranty and may include those requiring Twenty Year Terms and No Dollar Limit (NDL)..

To maintain their membership as a Johns Manville Peak Advantage Contractor all earners of this status must install and pass a final inspection on a minimum of two JM roof systems requiring a Peak Advantage Warranty each year. Eagle Rivet Roof Service has been approved as a JM Peak Advantage Contractor since 2004 and has installed over 10,000 squares of approved JM roof systems.

We are pleased to have Eagle Rivet Roof Service as a Peak Advantage Contractor in 2014 and look forward to many more successful installations in the future.

Thank You,

Ryan Rickerds  
Peak Advantage Program Manager  
Johns Manville Roofing Systems
