Re: Mohegan Tribe Safety Award
Arooga's Grille House & Sports Bar

Arooga's Construction Team Members,

We would like to personally thank you for your commitment to achieving EH&S excellence during the course of the Arooga's Grille House & Sports Bar Project. Through some tough winter conditions and unique project challenges, safety clearly remained the top priority of A/Z personnel and our subcontractors alike. **In fact, you collectively worked 8 months and more than 22,000 hours without a single loss time injury.** This fantastic performance is directly aligned with our "Safety First" culture.

The Mohegan Tribe Safety Department of Regulations and Compliance has recognized this commitment with the attached safety award. This achievement would not have been possible if not for the great coordination between all trades and team members on the site. Your work has resulted in a truly unique venue that we can all be very proud of and enjoy.

Sincerely,
A/Z Corporation
